## Roof Signage

### **Details: - Manufacture 4 x Installation:**

Manufacture 4 4 x Illuminated Signs on Rooftop Above Lifts FOUR SIDED Each light box size: (W)8700mm x (H)2400mm Manufacture Lightboxes steel Frames Cladded with Chromadeck Internal illumination LED tubes Printing on backlit Full Colour PVC - faces fitted with a Spirit Flex tensioning System.

Illuminated signs on Head Office. The signage boards have to be mounted onto steel brackets above tiled walls. The dimension is 150mm from the bottom and supported by back braces to be drilled into concrete rooftop with base plates and signs to be braced to each other for wind factor.

The signage boards have to connect to internal electrical cables or solar panels installed so that signage illuminates at night to passersbys – especially those traveling on the N1 North and South. For this installation, we would also require a Compliance Certificate.
